

WINDSTOPPER® SOFT SHELL FABRICS

Protection for various weather conditions

Individual components have to match and fit together in order to function as an entirety.

WINDSTOPPER® Soft Shell Fabrics is just such a component, one with which clothing can be combined to function to best effect. For an eye for detail is every bit as important as an eye for the whole.

WINDSTOPPER® Soft Shell is a 3-layer-laminate consisting of

▶ **Outer layer:**

abrasion resistant and water repellent fabric or knit

▶ **WINDSTOPPER® membrane:**

Windproof, breathable and water resistant

▶ **Inner layer:**

Fleece or knit

Features

- ▷ Durable windproof
- Very breathable
- ▷ High abrasion resistance
- ▷ Water repellent
- Water resistant on surface

Additional features (do not apply to all products)

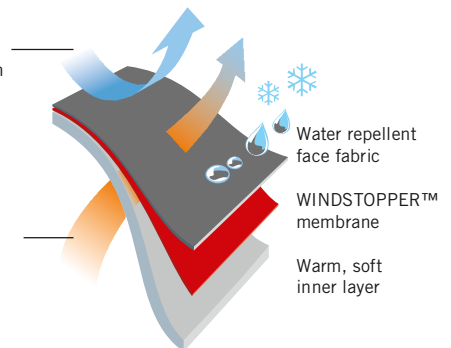

- Insulating
- ▷ Elastic
- ▷ Soft & quiet

Customer benefits

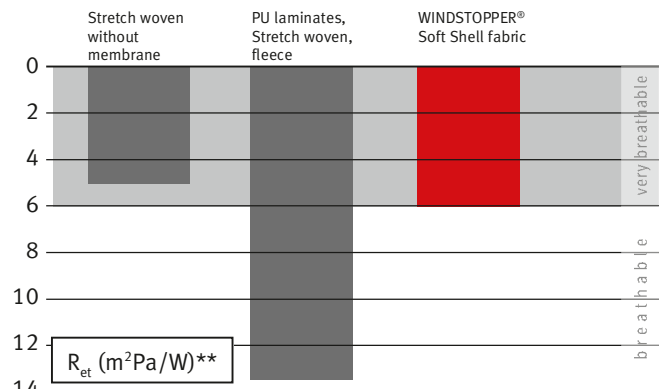

- ▷ Reliable protection from convective heat loss due to wind chill effect
- ▷ Improved wearer comfort
- ▷ Looks good for longer
- ▷ Appropriate products for weather protection against light rain and snow

Total Windproofness
Protects your body's warmth from the chilling effects of wind and weather

Maximum Breathability
Prevents overheating and perspiration build-up by allowing moisture vapor to easily escape

WINDSTOPPER® Soft Shell Technical Breathability

* Average of four WINDSTOPPER® Soft Shell Products (certificate values)
** The higher the R_{et} -value, the lower the breathability gets
